

Vaccination of GP Practice staff for seasonal influenza 2019/20

CNSGP does not cover occupational health for practice staff.

Members of staff in an “At Risk” group should be encouraged to have the vaccination at their registered GP Practice

Locum GP’s are eligible for vaccination **via their registered GP** under the DES

You are recommended to check with your MDO to ensure which clinicians are covered to administer vaccines to staff for occupational health purposes (treat staff as a private patient)

You are advised to obtain written confirmation
Are you covered?

YES

- Treat staff as private patient
- GP to write up a **PSD** for Nurse to vaccinate
- Send copy of record of immunisation to staff own GP (obtain staff consent)
- FP34 CANNOT be completed and claimed

NO

Is the Member of staff a patient at the practice?

YES

Vaccinate member of staff as a patient
(Covered by CNSGP as a patient)
Claims under the **DES** can only be made if patient (staff) is included in the specified cohorts

NO

Consider offering a voucher or re-imbbursement for staff to have flu vaccination via local pharmacy
